A: CRP and Depressive Disorder (p = 0.0011)
RCS Spline Model
Cohort Baseline (41%)
Predicted Prevalence of Depression
C-Reactive Protein (mg/L, log scale)
B: CRP and Suicide Attempt (Non-Linear Spline p = 0.0023)
RCS Spline Model
Cohort Baseline (24%)
Predicted Probability of Suicide Attempt
C-Reactive Protein (mg/L, log scale)
C: CRP and Cardiovascular Disease (p = 0.0005)
RCS Spline Model
Cohort Baseline (29%)
Predicted Prevalence of CVD
C-Reactive Protein (mg/L, log scale)
D: Uric Acid and Judicial History (p = 0.0319)
RCS Spline Model
Cohort Baseline (14.5%)
Predicted Probability of Judicial History
Sex-Standardized Uric Acid (Z-score)
